

IT Strategic Direction

COT 2017

Pace of Change

- Moore's Law *extrapolated*
 - Computing power will 2x every two years and decrease in cost
 - True for 50 years now

Digital Disruption

Change IS Coming

YOU

We are COMPLIANT!
We are a TRUSTED partner!
We have DECADES of experience!
We are on SOCIAL MEDIA!

Uhh..ok

But your
app sucks

I don't want to
wait a week

I want
convenience

I want
experience

Cheaper AND
better service?

THEM

Hey this solves
my problem!

Soon

Rise of the Smart Machine

- Sensor enabled they can:
 - Hear
 - Speak
 - See
 - Touch
 - Learn
 - Predict & React

Courts Disrupted

Version 1.0
Adopted 11 May 2017

Rethink how we Serve

- Faster Resolution
- Less Complexity/ Expertise Required
- A Reasonable Cost
- Accessibility: 24x7 instead of 8-5
- Scaled to the Client
- Based on facts/data/outcomes/trends

Examples

- Probations Evidence Based Practices
- Online Dispute Resolution
- Specialty Courts
- Electronic Filing
- Proactive Electronic Notification
- Fair Justice For All recommendations

Fair Justice Initiatives

- Streamlined Correctable Violations handling
- Online Ticket Processing
- Court Assistance & Fine Reduction programs
- Tiered Fine Assessment based on Poverty levels

Cont.

- Electronic notification of upcoming Hearings and payments due
 - Warnings on failure to comply
- Release decisions/conditions based on structure assessment

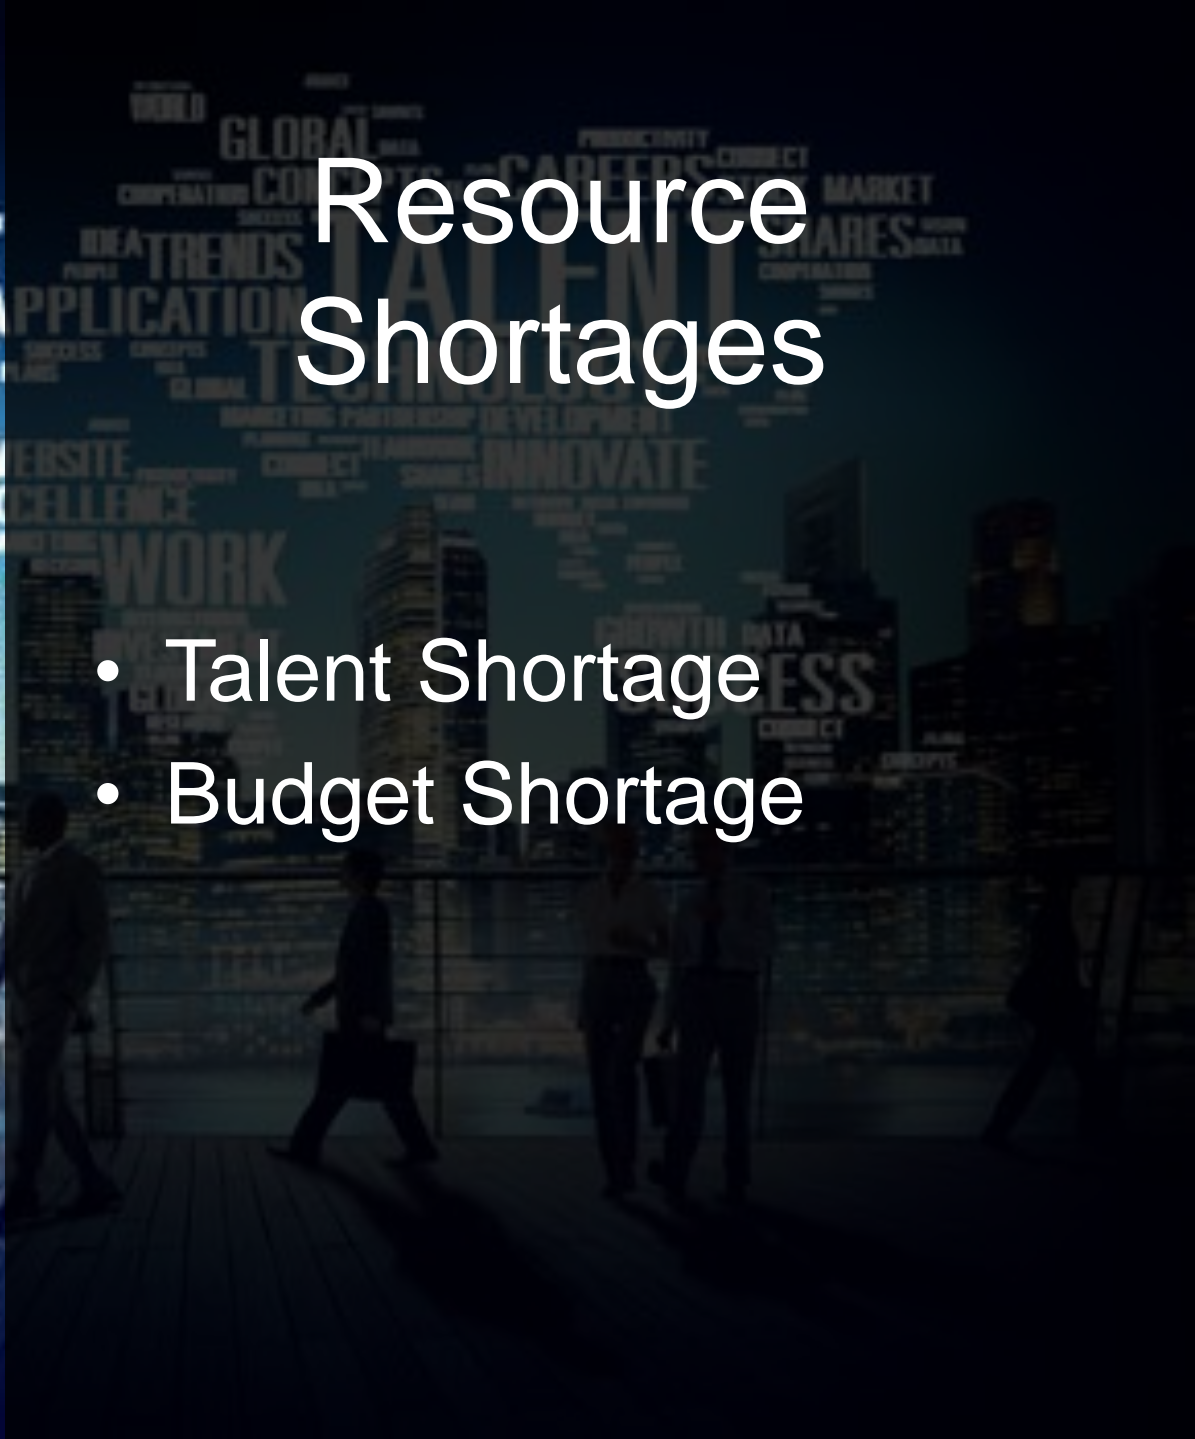

Technology Challenges

Tech Debt

- Old inflexible systems
 - Slow improvements
 - Limit innovation
- Lack of Support
 - Security Vulnerabilities
 - Business Disruption'
- Resource Consumption

[illegible]

- 
- # Resource Shortages
- Talent Shortage
 - Budget Shortage

Federated system

- Too many systems to integrate
- Too many different processes
- Too much replication of effort
- Too many Committees

Key Initiatives

- Managing and protecting massive amounts of **digital information**.
- Learn to Leverage our **Big Data**.
- Retiring the Technical **Debt**.
- Look to **Cloud** Infrastructure and Services to reduce debt and speed delivery.
- Move from Monolithic systems to componentized **services** for flexibility and speed.
